

# Door Retainers

Series 1350 / 1360

The 1350/1360 series is a range wall mounted electromagnetic door retainers that offers the user a choice of holding strengths.

Robust and simple to install, they are ideal for a wide range of applications such as nursing homes, hospitals, schools and industrial premises. Doors can be held open under normal conditions and then automatically released in the event of a fire alarm activation.

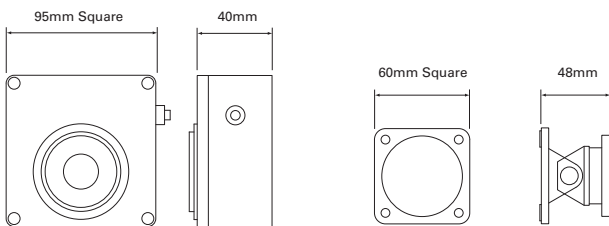

## Features

- Versatile holding settings
- High holding force
- Low current consumption
- Release button and protection circuit
- Adjustable damping keeper plate
- Protection diodes as standard

## Benefits

- Flexibility in installation
- Suitable for large and small fire doors
- Requires less power from your system
- Door can be manually closed when not activated by the fire system
- Allows for door misalignment

## Dimensions

## Technical Specification

<b>Holding Force</b>	25-50Kg 245-490N /50-100Kg 490-960N
<b>Voltage</b>	24Vdc
<b>Current</b>	25-45mA / 40-100mA
<b>Mounting</b>	Wall mounting / Floor bracket available
<b>Housing Material</b>	Steel / ABS cover
<b>Temperature Range</b>	10°C to +55°C
<b>Protection</b>	IP40
<b>Weight</b>	800g / 1000g
<b>Body Colour</b>	White / Black
